Winner Announcement	Online	23rd Sep	

D. Hackathon Rules

There will be two phases of hackathon: Phase 1 for Ideation & Phase 2 for Web App Development.

After assessing web app ideas in phase 1, there will be 50 team shortlisted for phase 2.

1. Who can participate

- Whether you're an experienced developer or non-coder who understands about web application concepts.

2. Team Size:

- Individual or team size of max 3 people – 1 team leader to be nominated for every team.

3. How to get access to Appizap platform:

- The leaders of the qualified team for final round will be given access to Appizap platform. They can invite the other team members. Not more than 2 members to be invited.

4. What to build:

- New Web App: Build and publish an all-new web app via the Appizap Platform

5. What to submit for Ideation Round:

- Text description explaining:
 - The idea about the web application use case
 - Features and functionality of your web application
 - Users of your web application
 - Potential Impact of web application

6. What to submit for Final Round:

- Link to published web application from Appizap
- ~3-minute demonstration video of your web application
- Appizap Workspace id and User id

7. What to submit for Bug Finder Challenge:

- Share feedback and bugs on discord channel or on feedback feature available in Appizap.
- The quality and number of unique bugs + feedback will be considered for this challenge.

E. Judging Criteria

1. For Ideation Round:

a) Potential Impact

- How big of an impact could the project have on users or a third-party product's users?

b) Quality of the Idea

- How creative and unique is the use case?

2. For Final Round

a) Web App Usability

- Is the web app usable by end user with initial idea that was presented?

b) Design

- Is the UX and design of the web application well thought out?
- Is there an effective use of frontend and backend in the software?

c) Technological Implementation

- Does the project demonstrate usage of following aspects of Appizap:
 - App Studio, Database Builder, Workflow Builder & Data Sources

F. Prizes worth of INR 2 Lac

1 st Prize Winner	INR 75,000
2 nd Prize Winner	INR 50,000

3 rd Prize Winner	INR 25,000
Bug Finder Challenge (10 winners)	INR 5000 (for each winner)
